In this morning's Senterel, you have an article headed "A Libel : pon the State" demundatory of a portion of the Documentary History of this State, recently published, relating to the Midwaukee an! Rock River Caual, in which prerty free uses as made of my name, I wish to living it rough your paper, whether you mean to be understood as changing that I have ever made and acquired the State, which a urgust, or unfounded in law, equity and good conscience. If so, you greatly err, and I hope you will make yourse we fully conversant with the lacts, before you go farther in the void in which you have begun. Denunciation is a cheap commodity which may be easily commanded by any s ribbler, but it is not a very fair way of presenting the moints of a case involving important nuterests.

For the Sentin

os understood as changing that I have ever made

It is true, that so long as I had change of the Canal Company affairs, I urged their just claims persecretingly upon the attention of the Legisla-ture, ar i it is only through the grossest violation of the yublic faith, that they have not been, long duce negueted and settled. The Co have asked the Legislature in the most respectful terros, to make a fair a tilemen, and pay whatever should be found then just due. Is there anything un cusomble in such a r quest? We ask for sumde justice, nothing more But the Legislature has put off the subject from year to year, on one pretext or another, until now it seems that the herealter, as a good reason for a continuance of

ich refusal I cannot discurs the subject in a newspaper 'down's regularly "every morning" and "so inticle neither can you, in a manuer to do st just continues until 4 P M 'Then "it is to again I cannot discuss this subject in a newspaper nce Since, however you have seen proper to till next morning when down it goes " he Tel Hulley for me and a trought forware this call attention to it. I may be indulged in stating egraph does this, not only to the disapp introcu m min, a real y ab and convincing argument in buef that the Legislature of the Territory in fivor of a probability law, dw. lling at 1 agth | was entrusted by Congress, to not up trustee, in | kee" who all desire to see the reports egularly sposing of the Canal grant of land, and required, as such truster, to app'y the proceeds to the State which agrees to take them" and then the construction of the Canal, which, if it had don't get them been faithfully done, would have secured the complet on of that work, to the great benefit of very unpleasant," all along of the m sterious Milwaukee and adjacent country Instead howver, of the Legislature so applying the proceeds if these lands, it took the money -- a sacred trust It agrees to deliver reports daily, to t e Wisfur d-and used it for paying its own dibts

The laws of Wiscorsin denounce such an act as emperal ment and if done by an individual, would subject him to imprisonment in the State Penitentiary Is the offince against morality any the less, because committed by the Legislature? I am sure that neither you nor any othe nght-minded man, will presume to say so

Let the State make a fair settlement with us fair dealing demands it, and it is all we ask , and tois they will be bound, sooner or later, to graps, Time is slowly, but sorely bringing about causes hat will competit, whether they will it or not, at d in the end the subject will stand before the country, stripped of the prejudice which indusmous makes bas thrown about it, and the Stat will be unable to refuse a fair adjustment of the wrongs, to which through bad faith, we have been for long years subjected.

The Territorial Legislature was guilty of a to report, 'more time's a naked for ar I delays great wrong in stiking upon and appropriating to its own use a trust fund, placed in its care to to used expressly and exclusively for another purpose, or I by a refusal to right that wrong, the State Legislature is making itself accessary to it But though the Legislature may, by the exercise of its power in a tyraphical manner, do for

Con mittee reported against refunding the money wrongfully obtained and withheld, but in favor of was not done. The committee say 'the trustee had the Powks to divert the trest fund and enand make at 1 and from transformant billed tangle the Company in the very difficulties of which they now so Litterly complain. The Ter-rate y did interfers, and by an act of Legislative the other in facing such an asscult, will be read IA CALITY, equal to that of which the Compary mught have availed themselves-and of which they have been accused—put the money into her own pocket where, as we believe, no power c a who e fr id upon Cor ress I set summer killed such it?" This be a remembered, is the admis-

noted a minerity of a committee opposed to the Company, but who could not deny the justice of Justion to that entirem except that it w a not half where so for my cly he speak realled his claim. (See minority report H. R. Feb 28, the ite the char Those who have our ed in 1848) The majority reported at the same time, 1848 ) The majority reported at the same time, clearly in favor of the claim of the Company. 1 efficiely in this position and the huge scherol have no doubt about the ultimate result , but have an abiding faith that time will vindicate the truth and equity of our asserted claims and that

Lespectfull r, de, RYBON KILBOURN P S I wish that all papers which see p oper to discuss this subject adversely would copy the foregoing and I am sure they will do so unless they mean to do an act of deliberate injustice.

A more lively and active place than Occoonovoc seemed to be, we thought it would be hard to find, even in this land of suddenly stating and rapidly growing villages. It is a delight ful spot, but soon the romance of wilderness, prine, lake and stream most give way to the othly trum institutions which mark the advent and pagress of American enterprise. The streets were literally hedged with teams, the taveres swarming with strategers, the grain dealers buying he vily, the stores filled with customers, the exist hrouged in with travelers and loadest with wheat.

Documentary History. The design of Gov. Farwell, in recommending such a work was well enough, but unfortunately, we had no one qualified to write such a book, who could or would undertake it. Gen. Wm. B. Smith, who had been for years a Clerk of the Senate, had come to be regarded too old for that past, and as nobady wanted him for anything, and he must be supported out of the State in some way, and as he was tho't by some to be a very learned man, no friends procured for him the appointment of State Historian, to write the Documentary History of this State We have always doubted the qualifications of Gen Smith for such a work. He is too opinionated to be impartial, too superanuated to be able to endura the labor the research and necessary to procure the proper materials for such a work, and too proclik to write such a work if it is designed to be read. His work would be chiefly useful to the publishers, who get it up for \$1.30 a volume, at the expense of the State, in a style just shabby enough to illustrate its real merits.

General Shields is no longer a Shinator, nor is he yeth Brigadier General in the service; but I am confident that the new Brigadier Generalship would not have been created by Congress but for their general belief and with that the appointment should be confirmed upon General Shields.

I learn that Generals Harney and P. L. Smith are competitors for the post. Both of these officers are colonels—but sendority is in favor of the latter. The date of General Smith's committees are colonel is a month older than that of General Harney. General Smith is also a Major Geyeral by dreat white General Harney is a Brigadier General by brevet.

NOW 18 THE TIME "Hurry up the Investigations," ---"What the Game is Now."

It is telerably well known that after a long and patient investigation, after the employment of competent engineers and architects, to make estimates, and after commissioners have been allowed to make all possible explanation, and to appear before the committee by some of the ablest counsel in the State, the joint committee to investigate the efficie of the State Lunutic Asylum are about ready to submit their remove. It is are about ready to submit their report. It is further rumored that this committee find that the avylum, under the present contract, will cost the say a from \$400,000 to \$500,000; and that no little traphlation exists smong the administration and its friends respecting the matter. And now the sincerity of the impudent and byzon-faced calls for investigation from the opposition is apparent When the veil is about to be torn off and the putrid ulcer exposed and probed, the patient who has thus far stood up so fuetily shrinks cook from

the trial.

On Saturday, just as the Senate was about to adjoint, Mr. H. well, well known to be an intimate friend of the administration, offered a joint resolution which may be found in our Senate reresolution which may be found in our Senate report, sufforizing the commissioners to review the regiment, estimates, &c., othered by the committee! Delay is now sought for. Instead of crying "Hurry up." as beterfore they ask time new. By the passage of that resolution the session would be protracted we as, and this is what the opposition desire. They hope to tire out the Legislature by delay and prevent the committee from reporting; or to protract the session and charge that the long session is all owing to the Republican Assembly.

We turn that no such resolution will pass.—

The design of Gev. Farwell, in recommending such a work was well enough, but unfortunately, we had no one qualified to write such a book, who could or would undertake it. Gen. Wm. B. Smith, who had been for years a Clerk of the Sonate, had come to be regarded too did for that post, and as nobody would him for anything, and he most be supported out of the State in some way, and us he wastho't by some to be a very learned man, but friends produced for him the appointment of State Historian, to write the Documentary History of this State We have always doubted the qualifications of Gon Snith for such a work. He is too opinionated to be impartial, too superanuated to be able to endors the labor the research and becomenty to procure the propor materials for such a work, and too proving to write such a work if it is designed to be read.
